Find out more about Universal Evolution and Root Causes of your issues and Justice System & Remedies

Understand of Prime Origin Point from which the Space, Energy, Matter, Galaxies, Stars, Planets, Life evolution and all..

Know that, each solar family, Galaxy and Universe knows itself like Humans knows themselves.

By leveraging your astral body as tool for direct knowing, It is possible to travel to Stars, Planets and Galaxies i.e. any part of the universe. This is the best tool to acquire the complete understanding of Universe without Spaceships/ Rockets or telescopes etc....

No Surprise, you can see every cell of your body with 3rd eye, No X-Rays and no MRI is required. You have power to energize (heal) any damaged cells or part in your body without medicines.

You can see Past and Future. It is time to review limitations Pros and Cons of evolving Science and take the control yourself, without depending upon any one.

In Universe, It is all the energy, that playing itself in many forms with a rule of, for every action there is equal and opposite reaction.

Humans, Birds and animals etc...are not just Physical bodies, not only made out of atoms. It has other bodies too! Astral / Ether body & Soul are integrated with Physical body, Like Mobile Phone or Computer Hardware is integrated with operating system and Applications Software.

Since Soul never dies, It is fully accountable for all its actions in each life. Past Backlogs will carry forward too! Soul will keep playing in universe by taking many births, Until it is evolved to a point to aware of self is the whole, Infinity and exists beyond space and Time

Mind Bending Facts about Universe

1. The universe contains around 50,000,000,000 galaxies, each of which has between 100,000,000,000 and 1,000,000,000,000 stars.
2. At the speed of light, time stops.
3. Dark matter / Mysterious matter makes up 83 percent of the matter in the universe, still not understood by Scientists
4. Atoms are 99.99% empty space meaning all the matter making up the entire human race could fit into a sugar cube..
5. The most powerful explosions in universe ever witnessed from our planet in recent years, are gamma-ray bursts that are trillions of times brighter than our sun.
6. In quantum physics causality can work backwards meaning our choices in the present can effectively determine what occurred in the past
7. According to some models of cosmology, there are an infinite number of universes with an infinite number of people.

The Evolution, Sustain & Dissolution of Universe from Single Point.

Evolution: The Current physical Universe evolution started 13.7 Billions of years ago, from a Single Point Highly Concentrated Energy of No Vibrations to Infinite number of vibrations in the form of Galaxies after 1Bn years, there by Stars, and then Gaseous Planets like Saturn or Jupiter far away from Sun, High Temperature molten rock lava Planets like Venus or Mercury too close to the sun. A combination of Volcanos, Rocks, Mud and sand on Planets like earth with oceans of water and Air that supports biological at correct distance from sun for longer periods. Earth is very special combination in current times.

Existence and its Value: To come to this stage of Evolution it involves unimaginable amount of various Natural forces like Nuclear, Gravitational Strong and Weak Forces, . Better Life exists on some planes and some are s not matured enough or still evolving stage or Life exists in past and not now like Mars. Biological Life evolved in Several Stages from Fish, Tortoise, Elephants, and Monkey to Cave Human to Modern Human.

Dissolution: When Hydrogen & Helium Fuel Burn out in our Sun or other Stars or Sun, the core can not sustain and will explode, become Supernovas/ Black holes. At that time the Planets like earth, Mars, Saturn etc. will expose high temperature. Dying Stars and Dead Planets are pulled by Strong Gravitational forces of Black Holes. Slowly All Black holes will merge becomes biggest black hole and become one point. . i.e. entire energy will be concentrated at single point and ready for next cycle of Universe evolution after certain sleeping period.. This Cycle period is around Billions of years more ahead..

Why Universe (Black Holes, Galaxies, Stars, Planets) has to exist in first place and dissolute over a time period? Why Life has to Exist and Extinguish?. Is there anything that exists beyond Time who can witness entire real game of Universe?

Yes, there is Witness Consciousness It exists all the times everywhere, from which Universe Merge, Exist and merge.. Witness Consciousness is Natural Property of Super Soul / Prime Soul. In fact there is no absolute name to it, it has neither beginning and nor end or any form or color or smell etc..

The reason for Universe and Life Existence, it is game. Or Play of Self. or Self Exploration of Possibilities and realities. In a nut shell Universe is Playing Filed. Souls is Players. Souls are integral part of super soul. When Soul starts its play or journey in the Universe, it starts with very limited awareness.. as Awareness will expands, as it gains different bodies like Ant, Fish, Tortoise, Elephant, Monkey, cave human or Modern human as part of evolution.. Now we know in modern Science, the universe is Hologram or Illusion. There is no material so called, A car, Mobile phone, Aero plane, Human body. It is all vibrations. No material or it is an Illusion or Maya

Time is everything©

It is High time for Modern Humans to look in to different perspective by gaining Universal Knowledge to become independent souls or merge with Supreme Soul. Be out of never ending Physical universe Cycles.. . Once we lost current evolution on earth, with Tsunamis, Earth Quakes, Volcanos or Natural calamities, The Available Knowledge will be lost. It happened in the past many times. Again it *might* take several millions of years, to come same cycle. i.e. Un evolved souls must wait for a very longer periods to enter in to physical body (called birth) and must undergo through several births again until each soul evolves to highest level.

How to explore we are more than what we are thinking i.e we are the Souls and we still survive after leaving the Physical body.

When You Sleep, Start developing the observation or witnessing your self slowly. At Some Point, You can separate the physical Body and you can able to watch your body from above or inside of body clearly like x-ray. Or Start observing deeply until you start differentiating all layers energies in your system i.e Soul, Astral Body and Physical Body. Physical Body is only a Tool to express of your (Soul) intentions on physical plane and governed by 5 Energies, Earth, Space, Fire, Water and Air or Planet Atmosphere. There are 8 more energy levels above current physical plane you live in. By Leaving Physical Body here on earth, You Can take Astral body as vehicle and travel in the Universe, Meet higher souls and gain the Knowledge about other planets life.. Once you become master of it. You know automatically when you want separate from the current physical body and where to go or How to go higher planes or much better life than earth or even be out of Physical Universe, or Source where you came from and stay there in the highest state.

First Recognize, There is an advanced automated system in place in universe, where it records all Soul Thoughts, Voice and Actions like automated movie. Know that, It can also be retrieved back .

When Soul picks different bodies on different planets, it will play or perform certain actions with other souls or Nature. Any actions those are not in line with universal law, it has to pay the price or penalty. In Absolute sense, there are no two souls in the universe. It exists only self with infinite capability as supreme nature in many forms or one energy in many forms. The whole game is all about exploration of the Universe with multi-dimensional awareness so called individual Souls. When you get in to this subtle fact, you are always whole and you know whom you are .

When Individual soul is out of touch Universal Laws or operate in their own domain or started to imagine their own laws or boundaries like this is mine and that is yours or no one watching my secrets etc., so on... This is where souls fouled the play. This also root cause of misery and forgotten the whole purpose of its existence of your big nature or supreme nature. The Witness Consciousness of yours at bigger level / True Self / Justice System, watches and records every souls voice and actions automatically. It is like Universal Supreme Computer records with no dispute to bring ultimate justice for every soul and it is part of nature...

Universal Justice System and Symptoms in particular periods of your life. (Saturn Effects)

Information Records: Space & Time has all past information in Akashic Files. Each soul can see any past incidents, past lives records and explore the backlogs i.e incomplete things in past life, Credits and Debits i.e any good and bad things you have done for other souls.

Rewards: Any things you supposed to get from others, there are high chances you will get in this life or in next life or beyond that, depends upon size of the credit in past and what you do in the current life,, Sometimes you may think that, you very fortune or you are very lucky,, It is not that you are lucky. The fact is that, you have done enough good things for others in past to society or country or world, it might have big impact to many millions of lives etc... Saturn / Justice dept will make sure that you will be rewarded with interest In a proportionate way.

Penalties In the Same way, if you have done any bad things like killing of someone, humans or animals etc., cheating or un justified things to others or self including suicide etc... When you go through Saturn cycles, the impact will be, ill health, accidents, loss of life, family separation, and financial losses etc...as an equal opposite reactions of past. At that you may think that you have bad luck.

In reality there is no such bad or good luck when you understand Newton's 3rd law i.e action = reaction. These waves are traveling over a time period and it will bounce back where it started to nullifies. Credits Debits, Back logs or Demands are the prime drivers and root causes for the soul to take the birth. This will go on in never ending cycles big bangs after big bangs. At some point you must know and resolute and take full control on yourself, seriously.

Remedies for Saturn effects

Classical Approach : Remedies are just like medicine for a particular illness. But it would not get to the point of the root cause. But you have power to know, why it happened?. What Triggered that event?, and When it happened? and how much is total effect how long you might have to face and what level and what kind of effects Etc.. for these kind Questions. You have the infinite potential power through deep enquiry or meditation to know the facts behind it and resolution in a scientific approach to counter those bad actions you have made choice in the pas. It is time to realize and evolve to next level as true universal citizen.

Sorry Approach in Current life incidents: When you made mistakes, like cheating, Killings or anything that is harmful to others or society, when you don't know how to come out, Approach concerned dept in Universe as last resort. The first choice must be here on earth, Local Justice, State Justice and Country Supreme Justice. Or meet person or concerned persons to whom you made harm, talk to them, say apologize deeply and commit yourself you do not do again and compensate reasonably. Make sure that there are no inside feelings on you from opposite party..

Sorry Approach for past life incidents: Some times after committing mistakes, you might have escaped from victims, or Local, State and Country Justice. Then after your last physical death, the entire balance sheet goes to Universal Justice. When you take next birth, they were waiting for you as reactions. Now in this life, without knowing yourself, you will get in to problems that you do not recollect the past. .These issues you will face particularly in Saturn 71/2 period of your life. No one can escape the universal Justice including country top Presidents, Gurus / Divine persons and including God itself..There are several proofs in this regard,

No one is above Universal justice. Everyone must pay the price for what choices made. Because there is only energy paying itself in many forms, rules created by same energy in order to have equal justice to each form. Here there are two options to come out of current issues. , Know the facts about past by yourself in deep meditation as prime or consult famous astrologers or Right Gurus or verify with 3 to 4 astrologers as secondary . Get the consistent report on this subject. Once you come to a point there is validity, or sense there is a Universal Justice do exist what science cannot see , then only approach Justice God or Saturn.

Realize , Communicate with Saturn and Resolve: Through Astral Travel and Meditation you can meet Saturn God, who is ready to help any criminals too and discuss clearly your issues and resolve yourself. The other choice is Mantra from gross or physical body. Mantra is like Unix / Linux commands to create. Frequency through repetitiveness, i.e. The mantra generates subtle vibrations in certain of wave's length and count is important to reach the right energy level or reach right person in Universe. When it touches the Saturn consciousness, Saturn will take your blocking energies and relives you. This is like open bank of correct counter energy that is fully open minded to offer to help you or anyone..

Just like Country Presidents pardons the criminals, with certain conditions and with open minded.. But this option no one has to right to abuse it. This clause is opened for people who wanted to change for good with self commitment. It works first time and or perhaps few times, only when you really ready to change Saturn will help you by taking your problems on him, Ultimately he is accountable for your problems. That is why you can call as god or good soul whatever many be wording. We refer to same energy.. . It is just like write off loans by big banks when people do not pay the loans for a longer time and bank will take losses.. If you are doing mantra just to come out problems without questioning self, you are deceiving yourself. Then you have to go through infinite cycles. Choice is yours to evolutes further or do same thing for ever and go through issues after issues with no reason. No Meaning for this kind of life.

Transit of Saturn and its effects on various stars

It is fundamental tenet of astrology that no planet is either completely benefic or malefic to any native. It depends on the running periods (Dasa) and Sub periods (antar dasa) and the transit of planets. It also depends upon the star that moon was occupying at the time of birth.. The average duration for each segment is two and half years of stay.

Ways to please Lord Shani Bhagavan

For example, Lord Shani in Simha Rasi and due to the transit, the natives of Karkataka, Simha and Kanya Rasi natives are under the grip of Elenati Shani or Sade Shani from September 6, 2004 to August 4, 2012. Natives of Vrushaba and Makara Rasi natives are under the influence of two and half years Daya Lord Shani. Black oil and black grams have given prominence to please Shani Bhagavan. According to Puranas, the body of Lord Vishnu, The Supreme of the Universe creates three types of grams ie., black, white and wheat colored grams. These three are said to be very holy ones. These grams are used in homas. Shani at one time or other gives both positive and negative results to the natives. He is the One to safeguard dharma by punishing the evils and make the native to realize the

importance of dharma. It is difficult to please the Lord Shani Bhagavan. The duty of Lord Shani is to punish the natives for the sins they have committed in previous life. To please Shani Bhagavan, natives have to Surrender themselves to Shani Bhagavan and offer prayers to take all your bad energies by him.. The Following mantras are to be chanted on Japa beads of 108 beads per string. They are similar to rosaries. The Saturn's mantra may be recited for 24,000 times within 40 days and puja performed with blue flowers and sandal wood. Begin recitation on a Saturday during the bright half of the Moon.

"Om Hlim Sham Shanaye Namah"

The word 'Hlim' in above mantra denotes Stambhana Shakti, the power of delaying, stopping, holding, and terminating.

The following mantras are also considered very good for planet Saturn. You may opt to recite one of the following mantra if you find it comparatively easy to remember.

ॐ प्रौं प्रीं प्रौं सः शनैश्चराय नमः।

"Om praam preem praum sah shanayishraya namah"

ॐ शं शनैश्चराय नमः।

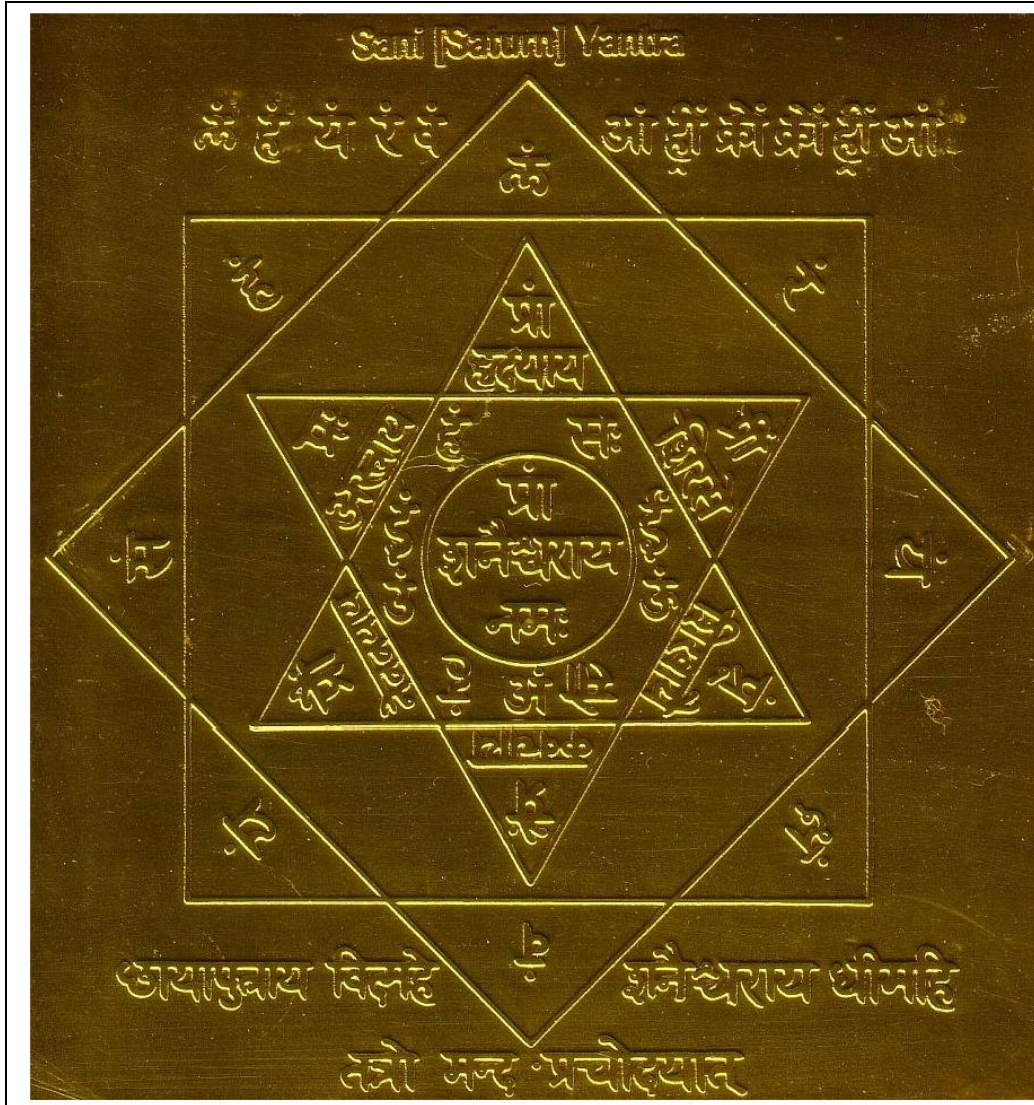

"Om sham shanayisharaaye namah"

Also the above types of remedies never do any harm and as such can be opted by anybody irrespective of the condition of the planet in the chart. Below some of the simple but highly cost effective remedies that any person can adopt to protect themselves against the inauspicious effects of a malefic planet like Saturn. Saturn Yantra, can be used by everybody at all time in their life.

1. Hanuman Kavach to protect oneself during Sade Sati (7and half year cycle of Saturn).
2. A combination of Saturn Yantra and Moon Yantra can be a potent protection against Sade Sati or against 8th house or 4th house transit of Saturn.
3. A combination of Hanuman Kavach and Saturn Yantra is very effective if there is a combination of Saturn and Mars conjoined in one sign in a person's chart. This will be more so if one of them or both are debilitated and retrograde in the natal chart . Or the combination makes the chart " Mangalik"
